

THOMAS MAXIMINI

SOFTWARE ENGINEER
FULLSTACK DEVELOPER

INFO & CONTACT

Born October 12th, 1982
tmaximini@gmail.com
+49 176 38564220

SKILLS

Programming

Javascript, Typescript, Python, Ruby,
Java, PHP

Javascript / Typescript

Node.js, Next.js, React, Redux, Express,
Koa, Apollo, Webpack, Jest

Containers, Cloud, CI

Docker, AWS, Jenkins, K8s, serverless

CSS

CSS3 and Pre-Processors
CSS-Modules
CSS-in-JS (styled-components, emotion)
TailwindCSS

Databases and ORM

GraphQL, DynamoDB, Postgres, MySQL,
MongoDB, Mongoose, Redis, DynamoDB

Mobile

React Native, Ionic Framework, Apache
Cordova

Webservices

REST, GraphQL, Microservices

Versioning and Tools

Git, Github, Jira, Gitflow, Slack etc

WORK EXPERIENCE

Senior Fullstack Developer, Freelance

Catrice, 01/2020 - present

Building a GraphQL middleware service layer for
a large salesforce e-commerce platform using
Typescript and Apollo.

Senior Software Engineer

Remote, 03/2019 - 12/2019

Working for a small remote company that built
and maintains an e-commerce solution for
multiple online stores (11teamsports, kicker and
others). I helped to bring all their micro services
to AWS and building a continuous deployment
pipeline using Docker, Jenkins, Jest, cypress
and Node.js.

Currently I help building on a new version of the
shop software and updating the micro services
with typescript, AWS lambda / serverless,
next.js, styled-components etc.

Freelance Software Developer

Berlin, 05/2014 - 03/2019

Since going freelance in 2015 I worked for
several high-profile clients as a javascript
developer in Berlin and remotely. Most of the
projects were based on React, React Native and
Node.js

Other

Good knowledge of *NIX systems
Agile development processes
Experience leading small teams

Motivation, Kindness, Empathy,
Determination, Humor, Communication,
Problem-solver mentality

LANGUAGES

German, English, Spanish, French basics

EDUCATION

Bachelor of Computer Science and
International Media Studies

*04/2007 - 09/2011, HTW Berlin, University
of Applied Sciences*

Bachelor of Business Informatics

*10/2002 - 10/2005, Berufsakademie
Mannheim, University of Cooperative
Education*

Senior Javascript Developer

Zalando SE, 11/2017 - 05/2018

Built an alternative Webshop frontend for fleck.de offspring as well as a Node.js middleware to communicate with Zalando's microservice infrastructure. React and Redux on the frontend and Node.js on the backend.

Freelancer Node.js and Frontend

Zalando Lounge, 11/2015 - 06/2016

Migrated a monolithic PHP shop application to a modern, cloud-based microservice architecture. Rewrote the frontend part using React and Redux and split the API into different microservices that could be deployed to AWS independently. Helped building and managing a team of 6 developers and improved the team's productivity and code quality by setting up a development workflow and build system with webpack and eslint.

Frontend Developer

Medx (now ada.com), Berlin, 08/2012 - 10/2014

Development of a complex Single Page Application for browsers and tablets (Expert System for medical diagnosis support) with Angular.js and strong focus on performance and reliability.

Web Developer

Eve Images (www.eve-images.com), Berlin 08/2010 - 08/2012

Built a custom content management system in PHP and a web interface for viewing 3D models.

Freelancer Web Development

Berlin, 10/2009 - 08/2010

Business Consultant for ERP-Software

Infor Global Solutions (www.infor.com), Stuttgart, 10/2005 - 02/2007

Client training and process mapping and configuration of software for automotive branch.
